

FQ – Full Criminal History Query
 IQ – Criminal History Identity Query
 QR – III Query – through Nlets
 CR – Criminal History Response (Rap Sheet)
 \$.A.CHR – Record Description and Destination of Rap Sheet

*FQ/IQ goes to state CCH/Nlets or both – CR responses can come from state CCH as well as III or other states through Nlets

FQ/IQ from client to client adaptor (request criminal history) OSMS will validate, transform and route the message to the state and Nlets. CR from state CCH and/or Nlets will return to the OSMS and get validated, transformed and correlated the routed to the Client. The OSMS also creates a message log and audit record of each transactions and provides audit services to review the audit entries.
